Continue Your Education at Beal and Bring Your Nursing Career to the Next Level!

The RN to the Bachelor of Science in Nursing Program continues the education of the professional nurse to meet the demands of nursing in today's complex healthcare environment. The BSN graduates are valued for their abilities to think critically, demonstrate leadership, provide case management, and engage in health promotion. They are also able to apply their skills across a variety of healthcare settings. This program develops nurses in the generalist role in alignment with the Essentials of Baccalaureate Education (AACN). Upon successful completion of the program the students will further be able to collaborate as a professional member of the healthcare team.
