Get the Skills to Become an Accounting Professional!

You may already have an idea about what you want to do for a career, or maybe you’re not so sure. Either way, Accounting is the one degree program that gives you the education to succeed at just about anything in the business world. As a graduate of the program, you can pursue a career in finance or corporate management, work in government, or even become an entrepreneur. No matter what you decide to do, having an accounting background can lead to a variety of employment opportunities for you.

As an Accounting Associate’s Degree student at Beal University, you will benefit from a curriculum that relies on exercises and integrated projects to help you understand the core principles of business management. And that’s only the beginning.

Our courses emphasize four functional areas: accounting, finance, marketing, and operations. By gaining insight into each of these critical areas of study, you’ll become prepared for a meaningful and rewarding career. Best of all, our small class sizes give you one-on-one attention to help you learn. That means you’ll have an opportunity to develop a skill set that will pay dividends in your professional career.
