## Healthcare Sciences at Beal University – 100% Online!

The Healthcare Sciences program is comprised of lab science courses and health science courses that will provide you with a rigorous scientific background applicable to the health profession. Students complete the program in order to gain promotions, develop management and leadership skills.

The Associate of Applied Science in Healthcare Science is designed to prepare individuals for the growing field of healthcare. Graduates of this program should know and apply a combination of real-world technical skills and general education concepts. In addition to attendance in all courses, students will be required to complete out-of-class or additional assignments. These assignments include but are not limited to reading, exercises and problem solving, projects, research, papers, and presentations.
